5. Fire-fighting measures

5.1. Extinguishing media

CO2, water fog, other.

5.2. Special hazards arising from the substance or mixture

Hazardous decomposition: Carbon Monoxide and Carbon Dioxide

5.3. Advice for fire-fighters

Due to pressure build-up, closed containers exposed to extreme heat may explode during emergency conditions. Overexposure can cause decomposition of product and create a health hazard. Symptoms may not be immediately apparent. Obtain medical attention.

Summon professional firefighters. Use full protective equipment including self contained breathing apparatus. Water spray may be ineffective. If water is used, fog nozzles are preferable.
